

Certified Practising Accountants, PNG

Continued Professional Development 2019

About CPA PNG CPD's

"CPD is the systematic maintenance, improvement and broadening of knowledge and skills, and the development of personal qualities necessary for execution of professional and technical duties throughout the individual's working life".

Mr. Vincent Kuma BCom: CPA

Vincent has more than 15 years hands-on and supervisory experience in finance and accounting including training in accounting, finance and taxation. He has a Bachelor of Commerce (Accounting) degree from the University of Papua New Guinea and has been running CPD and workshops on various topics with CPAPNG for over 10 years to a wide range of participants.

Basic Accounting

Overview

This intensive and practical workshop provides attendees with a robust overview to accounting and an introduction to the link between accounting transactions, sub-ledgers and financial statements.

Objectives

- * Understand the principles and concepts that underpin the preparation of financial statements
- * Correctly account for any business transaction
- * Understand the relationship between all facets of an accounting system
- * Correctly prepare financial statements from incomplete records

Who should attend?

- * All staff within accounting and finance departments who conduct or supervise postings of accounting data.
- * Accounting professionals who prepare and analyse financial statements and require an understanding of the link between sub-ledgers and the general ledger.
- * Any employee who requires an understanding of sub-ledgers and the link between sub-ledgers and the general ledger.
- * Those accountants intending to sit for the Foundation of Accounting CPAPNG examination in May and October 2019.

ACCOUNTING FOR NON ACCOUNTANTS

This course will assist managers from non-financial backgrounds to better appreciate the importance of accounting within their organisation. It provides a comprehensive overview of accounting terminology, enabling participants to analyse and report on financial activities and apply the fundamentals of accounting.

Objectives

- * Identify and use accounting terminology
- * Analyze and interpret financial reports
- * Compare financial information and data
- * Prepare statutory requirement reports
- * Describe the concept of working capital
- * Determine how to obtain valuable information from annual reports
- * Describe the concept of accrual accounting and its standards and reporting aspects
- * Make financial business recommendations

Who should attend?

Managers, entrepreneurs, Business Owners, Senior Managers .
